

16 September 2010

Dear Rosie,

I would like to thank you and the staff at Pridex for allowing the UCOL Kitchen and Bathroom Design students such open access to the Pridex showroom, consulting room and factory at the end of August.

The students have all spoken so positively about their trip to Pridex and I know they left with a great deal more information and insight about what goes into a kitchen and how kitchens are manufactured.

Please can you extend our gratitude to Warrick for being so patient and open to questions as he took the students through the factory? I wish I had been able to be part of this as I am sure I too would have learnt something new!

Being able to teach the students about all the different products in kitchens with real live examples to show them, made my job so much easier and so thank you for allowing me to conduct my class in the showroom and consulting room.

We are part of a wonderful industry and I know that the students left Pridex feeling that this may be an industry that they wish to be part of.

Once again your hospitality was greatly appreciated and I certainly hope that we can foster a good working relationship between UCOL's Interior Design students and Pridex over the years to come.

Yours sincerely,

Janine Fenelon
